

YDC Sharing Summit

30–31 October 2017

Engage learners, enjoy teaching, grow communities

This year's summit will focus on how YuMi Deadly Maths brings maths alive, putting fun and enjoyment back into learning and teaching maths, which in turn leads to strong learning communities. In the words of one Year 4 student at a YDM school: *"At the start of the year ... everyone hated maths. But now ... with YuMi Deadly Maths, it's just awesome, it's fun, it's energetic! It's like games and learning!"* Teachers enjoy it too: *"YuMi has given me back a passion for maths, for teaching maths and for working with all students to love learning maths."*

You are invited to present your YDM stories and classroom experiences at the summit, or simply to attend for inspiration and professional renewal. Presentation submissions are welcome from all participants in current or past YDC projects. Registration is free for up to two presenters per school. Please send your expressions of interest to ydc@qut.edu.au by 15 September.

Registrations for the Sharing Summit are now open for presenters and other attendees through the [Sharing Summit registration site](https://www.ivvy.com.au/event/17YMDC/) (<https://www.ivvy.com.au/event/17YMDC/>)
